FUD 190-1

Feeder Unit with Dryer System

Speed up your production to your print speed

Complete Inline System Solution from Plotter to finished Print
Width up to 3.2 meters
For Solvent + UV Printers
Optional dryer unit FUD 190-1

The Hostert RD1 Dual and RD2 Dual

Roll-up and take-off unit

Automatic roll-up and take-off unit for material rolls up to 300 Kg in weight.

RD1 is easily adjustable in widths from 1.36 meter to 2.50 meters and the RD2 is adjustable in width from 2.50 meters to 5.00 meters. The unit is driven over a dancer roller which guarantees smooth transport of the material.

No core change is necessary. Easy switching from roll-up to take-off.

The RD can be easily rolled from work station to work station as needed.

This solution is supportet:

Interface between plotter and cutter.
Optional dryer unit for solvent Ink.

Dandy roller control between plotter and cutter
